BALANCED FLUE GAS FIREPLACE

HEAT & GLO

MODERN DESIGN REDEFINED

MEZZO 1300 SEE-THROUGH shown with clean face trim in brushed nickel, iced fog glass and natural logs.

MEZZO 1000 shown with clean face trim in new bronze, iced fog glass and ceramic stones.

MEZZO

You've never experienced modern design like this. Clean. Discreet. Luxurious. In 3 sizes, with a see-through model also available. Define your design with a variety of finishing options. We spared nothing, to give you everything. It's modern design, redefined.

Details matter. Every corner, every edge and every element of the MEZZO is all about perfection. Flames, lights, reflections and warmth combine to elevate the senses. A black glass interior adds depth and intensity to the fire. So captivating, we dare you to take your eyes off of it.

CLEAN FACE TRIM

CLEAN FACE TRIM FINISHES

INTERIOR OPTIONS

FLEX HEAT REGISTER
Redirect the warmth with a flex heat distribution system, ending in this sleek and discreet vent register. One is standard with the option of adding a second.

1: Requires glass media

MEZZO TECHNOLOGIES

INTELLIFIRE PLUS IGNITION SYSTEM

An advanced intermittent pilot ignition system with memory settings and a programmable wireless RC300 remote control. IPI Plus constantly monitors ignition, ensures safe functioning and conserves up to \$10/month in energy costs.

BALANCED FLUE TECHNOLOGY

Balance Flue fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

CLEAR LED LIGHTING TECHNOLOGY

Superior performance and extended efficiency. This technology provides high-contrast, brilliant lighting to accentuate the flames. Can be used as mood lighting, with or without the flames.

FADE-RESISTANT BLACK GLASS INTERIOR

A clean modern look never gets dull. Just like this black glass interior. It's hot. And looks that way, too. For the life of your MEZZO.

FLEX HEAT TECHNOLOGY

Draw heat from the MEZZO into another room of the home, up to 6 meters away. When flex heat is run continuously, it will redirect up to 25% of the fireplace's heat to another area, thus reducing wall temperatures above the fireplace. Two flex heat registers run continuously will redirect up to 50% of the fireplace's heat.

Dimensions above are in millimeters. Reference dimensions only. We recommend measuring individual units at installation. NOTE: Combustible material should not be installed over the face. Make sure you do NOT cover the decorative door opening.

Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not a true representation of the fireplace and/or flames.
